

Stanford GOALS
Department of Pediatrics & the Stanford Prevention Research Center- Solutions Science Lab
Head Coach / Site Director Position

Program Description:

The Solutions Science Lab in the Department of Pediatrics and the Stanford Prevention Research Center is seeking a part-time Head Coach/ Site Director to implement and oversee an after school team sports program. The after school team sports program is implemented at multiple community centers serving low-income, ethnically-diverse families in the East Palo Alto, Menlo Park and Redwood City areas. It is one element of a large-scale, multi-component, NIH-funded randomized controlled trial. Children are 7-13 years old and participate in the program for three years.

Roles include:

- Develop, adapt, and implement a highly motivating and engaging after-school team sports curriculum for overweight children.
- Supervise assistant coaches and student volunteers.
- Oversee homework, practice, game and competition sessions.
- Liaison between the project and community-partner.
- Maintain equipment and materials.
- Participate in other aspects of the project as needed.

15-20 hours per week.

Required Qualifications:

- ✓ Minimum of three years coaching or leading sports programs.
- ✓ Previous high school, collegiate or professional playing experience.
- ✓ Excellent communication skills, energetic personality, and ability to work as a team player.
- ✓ Available Monday - Friday from 3pm - 6pm.

Desired Qualifications:

- ✓ Prefer candidates with experience and interest in serving as a mentor and role model with low-income and ethnically diverse groups of children.
- ✓ Bilingual fluency in English and Spanish.
- ✓ Knowledge of multiple sports.

At least 1 year commitment required, 2 year commitment preferred.

Pay

\$18 per hour
